Details of Course Assignments:

- **Reading Assignments**

Students are given reading assignments each day and must complete the assignments along with answering the corresponding questions before each lesson begins.

- **Quizzes (5)**

Quizzes will be given on five Mondays (*for the slower-paced option*) scattered throughout the semester. These quizzes will **only** be verse quizzes.

- **Bible Lesson Project**

The student will select one important book of the Bible covered in the course and write a Bible Lesson on that particular book. He must include important facts about the book such as: the author, the context of the book, the purpose of the book, a summary of important events and themes covered in the book, and at least one key memory verse found within that book. The Bible Lesson must close with at least two important applications to take away from that specific book of the Bible. Once the lesson has been written, the student must find at least one person to teach the lesson to. The goal of this project is to allow the student to become more comfortable teaching other people about the Word of God.

- **Tests (8)**

There will be a total of eight tests taken during this semester. Including certain review questions and additional important information in the reading, the tests will be short answer questions. The tests are used to measure how much the student has retained over the course. Each test will cover a specific topic (named in the calendar provided above) and will not cover previously tested material.
