**Details of Course Assignments:**

- **Videos**

Almost every day, the student is required to watch the *Understanding the Bible for Yourself* video lessons. He must have the reading completed, along with any quizzes or projects submitted, before the video is to be watched. He must take diligent notes during these video sessions.

- **Reading Assignments**

Students are given reading assignments for most days and must complete the assignments along with answering the corresponding questions before each lesson begins. In most cases, the student will be reading ahead of the lessons he is to watch.

- **Quizzes (5)**

Quizzes will be given on five Mondays (*for the slower pace only*) scattered throughout the semester and will consist of an assigned memory verse. The student must write out the verses completely.

- **Bible Study Project**

This course will have one project due the last day of the semester. This project will help the student practice studying the Bible for himself the correct way. The student must pick from one of the following topics found in the back of the book:

- Study Key Bible Passages (pgs. 292-296)
- Study Key Bible Topics (pgs. 296-304)
- Study Individual Books of the Bible (pgs. 305-308)
- Study People of the Bible (pgs. 309-311)
- Study the Parables of the Bible (pgs. 312-320)

The student must read the pages that correspond with the Bible Study he has chosen and pick one of the given suggestions for that topic from the book. Each student must study his Bible carefully and correctly and compose a 4-5 double spaced paper on the topic of his choice following the steps listed in the description of the study. The student must show he understands how to correctly study his Bible, pay attention to details, and should include lessons he has learned from his study. In the conclusion of his paper, the student should include how he has grown from his study and what topic he wishes to study next.

- **Tests (2)**

The tests will only cover the first half of the book while the project will put into application the second half of the book. There will be a total of two tests taken during this semester. Including certain review questions and potentially extra important information found in the reading, the tests will consist of a section of short answer questions. The tests are used to measure how much the student has retained over the course. Test 1 and 2 will both be cumulative and cover all the information learned up to that point from the book only. The information learned in the videos will not be covered in the tests.
